

## Meredith's Favorite Places to Print Photos

Please note that some printing services will require you to provide a statement of release noting that you have the permission from Meredith Rose Photography, LLC to print your photos. If you are in need of one of these statements, please reach out to Meredith.

(317-938-2505 or [meredithcavaleri@gmail.com](mailto:meredithcavaleri@gmail.com))

**Friendly Reminder:** Please make sure when printing photos to use your files labeled “FOR PRINT”. These are your highest quality photos and will look the most detailed and sharp when printed.

Parabo Press - <https://www.parabo.press/>

Parabo is perfect if you want your photos to have that vintage “Polaroid” look. Printed on thick, matte, cardstock paper, these are perfect for hanging on a wall! There are plenty of other options such as photobooks and posters. If you look online, you will be able to find a coupon code for a set of free square prints. All you have to do is chip in for shipping!

Roberts - <http://print.robertscamera.com/>

Roberts Camera in downtown Indianapolis also has a great photo lab. While these take a few days to get printed, they are worth the wait. I have used Roberts many times for traditional 5x7 prints as well as large posters and the customer service and print quality is unmatched!

Wallgreens Photo - <https://photo.walgreens.com/>  
A great affordable option, Wallgreens is the best for when you want photos printed quickly! Walgreens offers great traditional prints as well as gorgeous canvas prints for your home. If you order these ahead online, you should be able to find a coupon code or special deal.

Simply To Impress - <https://www.simplytoimpress.com/>  
This is my favorite website to create invitations with. I used Simply to Impress to create my brother's graduation invitations. It has lots of great templates that are easy to fill in and the prints turn out great!
